

SCHOOL ERP — PANEL RESPONSIBILITIES

Who does what? Complete role-to-responsibility overview

ACCESS PRINCIPLE

Every panel authenticates through the ERP Core; RBAC decides which features and data each role can access.

Real-time event paths include GPS updates, SOS alerts, teacher-to-parent notifications, fee receipts and library dues.

SUPER ADMIN + SCHOOL ADMIN

System governance vs day-to-day institution management

SUPER ADMIN PANEL

1 Full unrestricted access to every module 2 Create/manage all user accounts 3 Configure roles and RBAC permissions 4 Institution profile 5 Academic year and sessions 6 Grading scales and fee heads 7 GPS geofences, alerts and retention 8 Audit logs and security settings 9 Backup and restore controls 10 SMS/payment/email/maps/biometric integrations 11 Final authority over institution-wide policies

SCHOOL ADMIN / ADMINISTRATION

1 Admissions and enrolment 2 Class/section allocation 3 Document verification 4 Staff records and ID cards 5 Enquiries, visitors and gate pass 6 Oversees attendance 7 Transport allocation 8 Parent/staff communication 9 Reviews GPS and safety reports 10 Follows up trips, geofence and SOS incidents 11 Coordinates departments for daily operations

MAIN CONNECTION

Super Admin → Admin → operational modules

TEACHER + STUDENT + GUARDIAN / PARENT

Learning, attendance, communication and family-facing responsibilities

KEY DATA FLOW

ACCOUNTANT + LIBRARIAN

Finance and library lifecycle responsibilities

ACCOUNTANT PANEL

1 Fee structures and fee heads 2 Installment plans 3 Invoice generation 4 Due/overdue tracking 5 Online payments 6 Offline payments and receipts 7 Refunds 8 Concessions/scholarships 9 Financial ledgers 10 Collection and transaction reports 11 Transport fee billing linked to Transport/GPS 12 Automated fee reminders

LIBRARIAN PANEL

1 Book cataloguing 2 Classification and inventory 3 ISBN import 4 Issue to students/staff 5 Return 6 Renewal 7 Reservations 8 Overdue tracking 9 Fine calculation 10 Lost-book dues 11 Library usage reports 12 Inventory reports 13 Student panel receives issue/return history

MAIN CONNECTIONS

ACCOUNTANT

Student → Fees → Parent → Reports

LIBRARIAN

Student/Staff → Library → Reports

PAYMENT

Payment → Receipt → Parent/Accountant

DRIVER + HR

Transport safety and employee lifecycle responsibilities

BUS DRIVER APP / DRIVER PANEL

1 Assigned route 2 Assigned stops 3 Estimated arrival times 4 Boarding attendance 5 De-boarding attendance 6 Live GPS every 10–15 seconds 7 One-tap SOS 8 SOS alerts admin + parents with live location 9 Route-deviation alerts 10 Speed-limit alerts 11 Trip events feed Transport/GPS 12 Offline queue is a recommended future addition

HR PANEL

1 Employee profiles 2 Departments 3 Designations 4 Employee attendance 5 Leave management 6 Leave approval workflows 7 Shift management 8 Payroll processing 9 Salary/tax deductions 10 Payslip generation 11 Performance appraisal 12 Staff document repository 13 HR and payroll reports

DRIVER → GPS → PARENT

DRIVER APP
Route + GPS

TRACKING SERVER
Location ingestion

GEOFENCE / ROUTE
Events + alerts

PARENT APP
Map + ETA + SOS

RBAC NOTE
Exact field-level permissions should be finalized in the detailed RBAC matrix during system design.

RBAC / PERMISSION WORKFLOW

Implementation rule: role → permission → module → data scope → action

CORE PRINCIPLE

All panels authenticate against and read/write through the ERP Core. Super Admin/Admin configure control and permissions; operational panels execute authorized workflows only.
